We have done our best to make your fund raising efforts as quick and easy as possible. You actually need to do nothing other than simply copy, past and edit, at will, the following letter and send it as an email or letter to your entire membership. You have 4 Fundraising Methods that you can utilize.

First Method-- Membership Fund Raising

If using this method, all you need to do is send the below email and on any purchase made from the Gift Site www.egiftsolutions4u.com and 20% of each purchase is donated to your organization.

To make sure that our system keys in all your members orders as coming from a Fund Raising Organization we ask that letters and correspondence append an "FN" to your ID code.

So, the code for your members to use in order to be certain that you get credit for merchandise purchase is

FR MD10423

Second Method-- Help Other Fund Raisers

If you also choose to use Method 2, all that you need to is to send them to Your Fund Raising Assistance Page. When the organization signs up, you will automatically be credited so that you receive donations from all the purchases and sales made from the members of their organization.

Third Method-- Offering Business and Financial Services

If you choose this method, all you do is send an email with the links to various services that we offer through you. When a member clicks on a link or orders a service, it is automatically keyed to you and your organization receives the appropriate donation amount. A sample letter is below.

Fourth Method-- Offer a FREE Business Opportunity to Each of Your Members.

To use this method, all you do is send a simple email to your membership, letting them know that a company has created

a system that will allow your members to earn money without investment and that by doing so, they are actually helping raise money for your organization. In the email have a link to your Organization's Site.
<http://allsolutionsnetwork.com/MD/MD10423>

Your organization will then receive donations in exactly the same manner and same amount as would an individual.

This means that your organization will then be receiving all earned income streams within the ASN system as would an individual that had developed a similar downline.

We understand that there may be a certain reticence in offering your membership what appears to be in effect a business opportunity. That is understandable, but you can be assured that this is unlike any other business, it is absolutely without risk, requires no investment whatsoever, no expenses of any kind, it is Impossible to lose a dime. Before offering it to your membership, please do, examine it. But start with the simple analysis that we have done here.

All Solutions Network A World of Opportunity and Solutions! Whatever the issue-- We have the solution... Free information and services on a wide range of issues...
